

EE 102 Week 2, Lecture 1 (Fall 2026)

Date: September 9, 2026

Contents

1	Learning outcomes	2
2	A reminder: Circuits	2
3	Properties of systems	3
3.1	Linearity of systems	3
3.2	Time invariance of systems	3
4	Review: transforming signals	3
4.1	How to sketch signal transformations?	4
5	Energy and power of signals	5
5.1	Measuring the energy and power of signals	6
6	Even and odd signals	7
7	Application demonstration: a guitar amplifier	8
7.1	Distortion effects	9
7.2	Optional: Audio tone signal example and time operations	9
8	Special signals	9
8.1	A special signal — the unit step function	10
