

EE 102 Week 4, Lecture 2 (Fall 2026)

Date: September 23, 2026

Contents

1	Review: LTI systems and convolutions	2
2	Time-domain system response	2
2.1	Building intuition for a system's responses	2
2.2	Example: Analyzing an RC circuit using convolution	3
2.2.1	An impulse input to an RC circuit	4
2.2.2	A step input to an RC circuit	5
2.2.3	A sinusoidal input to an RC circuit	6
2.2.4	A generalized complex exponential signal input to an RC circuit . . .	6
3	Next class	8
