EE 102 Week 10, Lecture 2 (Fall 2026)

Date: November 4, 2026

Contents

1 Announcements **2**

2 Goals **2**

3 Review: Fourier Transform in Continuous-Time **2**

4 Fourier Transform of Discrete-Time Signals **2**

5 Properties of DTFT **4**

5.1 Periodicity 4

5.2 Linearity 5

5.3 Time Shifting 5

5.4 Frequency Shifting 5

5.5 Convolution 5

6 Examples: Filtering **6**

6.1 Discrete-time example: filtering 6

7 Computational implementation of the DTFT **7**

8 Recommended Reading **8**
