

Contents

1	Goals	2
2	Why study signal processing?	2
3	Course flow	3
4	Motivation to study signal processing	3
4.1	Real-world significance	3
4.2	What signal processing is not?	4
5	Pre-requisite #1: Vectors	4
5.1	Matrices are transformations	4
5.2	Real-world significance	5
6	Pre-requisite #2: Complex numbers	6
6.1	From vectors to a complex scalar.	6
6.2	Inner products and linear dependence	7
6.3	Inner product via complex numbers.	7
6.4	Real-world significance	9
7	Pre-requisite #3: Circuits	10
