

EE 102 Week 3, Lecture 1 (Fall 2026)

Date: September 14, 2026

Contents

1	Goals for today's lecture	3
2	Even and odd signals	3
3	Periodic signals	4
3.1	Why periodic signals?	4
3.2	Periodic extensions	4
3.3	Example: Periodic or not?	4
3.4	Power and energy of periodic signals	5
4	The unit step function	6
4.1	The unit step as a switch	6
4.2	Example: A sinusoidal audio wave that starts at zero time	7
4.3	Unit step as a general switch	7
4.4	The unit step as an accumulator	9
5	The unit impulse function	10
5.1	Impulse as the limit of a rectangular pulse	11
5.2	Impulse as a time-sampler	12
5.3	Relationship between unit step and unit impulse	13
